Keating Resources Welcomes Sean Hogard as Director of Construction for Deer Mountain Village

RAPID CITY, SD – Keating Resources ([keatingresources.com](https://www.keatingresources.com)) is pleased to announce the hiring of Sean Hogard as the new Director of Construction for Deer Mountain Village ([deermountainvillage.com](https://www.deermountainvillage.com)). With over 15 years of experience in construction operations, project management, and business development, Sean brings a wealth of expertise to the growing Deer Mountain Village project.

Sean joins Keating Resources from Kiewit's Foundations Division ([kiewit.com](https://www.kiewit.com)), where he served as Superintendent, managing multimillion-dollar projects across the U.S. His leadership and expertise in deep foundations, ground improvement, and large-scale infrastructure projects have driven significant project successes, including the \$1.2 billion Central 70 Project in Denver, Colorado, and the \$204 million New London State Pier Infrastructure Improvement. Throughout his tenure at Kiewit, Sean demonstrated exceptional operational management skills, ensuring safety compliance, effective project execution, and fostering key client relationships.

Before his time at Kiewit, Sean founded Hogard Design & Construction, managing residential and light commercial construction projects in Rapid City, SD. He also served as Project Manager at Brink Constructors ([brinkred.com](https://www.brinkred.com)), overseeing high voltage transmission line and substation projects, and managing budgets ranging from \$50,000 to \$12 million.

"We are thrilled to have Sean join our team at Deer Mountain Village," said Alec Keating, President of Keating Resources. "His proven track record in managing complex construction projects and his ability to deliver results in high-stakes environments make him a valuable addition to our leadership team."

Sean's strategic approach to construction operations and his passion for driving project excellence align perfectly with the vision of Deer Mountain Village. As Director of Construction, Sean will oversee all construction activities, ensuring the successful and timely completion of projects while upholding the highest standards of safety and quality.

Sean studied Construction Management at Pittsburg State University ([pittstate.edu](https://www.pittstate.edu)) and has completed various professional development courses, including Emerging Managers Training and OSHA certifications. His diverse background and hands-on experience in the construction industry make him uniquely qualified to lead Deer Mountain Village's construction initiatives.

"I am excited to join the Keating Resources team and contribute to the development of Deer Mountain Village," said Sean Hogard. "I look forward to applying my experience to help bring this exceptional community to life."

Deer Mountain Village is a private upscale adventure community located in South Dakota. Offering a wide array of amenities and stunning natural landscapes, Deer Mountain Village is a haven for those seeking an extraordinary lifestyle. For more information, please visit www.deermountainvillage.com.

Keating Resources is owned by father-son entrepreneurs, Gerard and Alec Keating. The company invests in value-add real estate across the United States, totaling over \$1 billion in transactions over its 20 year history.
